

At Griner Medical Group, we are dedicated to keeping you healthy. We will proactively care for you with the goal of helping you achieve maximum health and quality of life.

In order to provide more personalized care, we will be accepting a limited number of patients. This allows us to ensure that you leave the office feeling confident and satisfied. We don't just treat the symptoms of the day – our providers have the time to communicate with you and see the bigger picture.

If accepted as a patient by Dr. Griner, you will have full access to our Main Practice, plus the Adult Clinic and Pediatric Clinic (Building C). You may complete your application with a downloadable, printable form. Once complete please return to any of our locations. Submission of this form does not guarantee your acceptance as a patient with the practice. All applications are approved on an individual basis.
