

Please do not complete any of this paperwork prior to being accepted as a new patient of Dr. Griner or Dr. Madon. If you are accepted as a patient, you will receive a letter from our office welcoming you!

Congratulations on being accepted as a new patient of Dr. Griner or Dr. Madon. To make your initial visit with us quicker, you can complete the following paperwork prior to your first visit. You will need to return the Medical Records Release that was included in your acceptance letter before we can schedule your New Patient Visit, so we can obtain your medical records from your previous physician. If you have misplaced the release form, you can print another one by clicking the appropriate link below. You can print and complete the new patient paperwork and bring it with your records release, or bring it with you to your first visit.
